Teak Wood Furniture

For centuries teak has been known for its high quality, durability, and beauty. Genuine Teak is a hardwood tree found in countries of Southeast Asia such as Indonesia. Teak is very hard, densely grained wood with high oil content. These characteristics make teak furniture naturally resistant to moisture, rot, warping, shrinking, splintering, insects and fungus, making it ideal for outdoor use.

Our Indonesian factories use only Grade A, government managed, plantation grown teak. The construction of our Teak furniture follows the traditional method of mortise and tenon construction and is assembled with wood dowel joints. You are sure to get years of trouble free use from any of your teak selections.

BRIENA COLLECTION

To create this collection our Master craftsman start with high quality plantation grown teakwood and using mortise-and-tenon joinery they put together an exceptionally sturdy collection. Seating groups are available with round or square tables. Chaise lounge features a pull out tray for drinks or a book. All teak will develop of soft gray hue or you can maintain the original color by using a teak protection product. Includes deep plush cushions in your choice of premier outdoor fabrics. Sunbrella Fabrics available at an additional cost.

TEAKWOOD CARE KIT

Teak can be left outdoor to weather naturally and require very little maintenance. As the surface pigments begin to fade, teak will turn to a beautiful silver gray patina. The rate of weathering is dependant upon climate and exposure to sun. It is recommended that you let your teak furniture naturally weather and just thoroughly clean it once or twice a year with mild soap and water.

To keep the golden-brown color of new teak you may use our Teakwood Care Kit. The kit includes Teak Cleaner & Teak Protector to restore you teak to its original color.
